PROFESSIONAL KIT.

Successful plant and machinery transportation is reliant on having the right trailer for the job. When there are a variety of machines or applications to cater for the brand new **CarGO All Plant Tiltbed** range is the right solution. The robust and durable design is obvious at first sight and once in use, so is the depth of expertise in the chassis and design detail. Traditionally difficult machines are easily transported.

- **Adjustable punched ramps** are standard on the **All Plant Tiltbed**, each ramp can be positioned independently across the full width in seconds.

- **Reinforced anti slip deck** ensures that destructive equipment such as rollers and mini diggers will not cause structural damage.

- **Twin ramp 'knife edge' loading panel** with gas spring assistance shown in main picture on page 55.

ALL THE BITS.

● **ACME thread clamps.**
Silent locked – the loading tail ramp is held in place with secure clamp fasteners. A rubber buffer is part of the system and provides damping for quiet travel.

● **Adjustable punched ramps** provide low loading angle for all types of vehicles. Each ramp can be positioned across the full width in seconds. Constructed from galvanised steel, punched for high grip. Unique nylon hinge sleeves eradicate unwanted rattles.

● **Robust protection** provided to **rear lamp clusters.**

Gas spring assisted tail ramp ensures that lifting operation regulations are easily met.

● **Side lift handles** for your convenience.

● **Twin ramp 'knife edge' loading panel** with gas spring assistance. The loading panel has all the benefits of a full panel and provides durability for tracked machine transport. The ramp facilitates a low loading angle.

● **Tie-down straps**
heavy duty, set of 4 for
easy and secure fastening
of machinery.

- **Spare wheel** mounted on the side.
- **Front marker lamps.**
- **Rope hooks / slots.** Multiple attachment hooks and slots along both sides and front for securing loads.
- **Galvanised steel** chassis. Strong and light.

- **Jockey wheel.**
Auto retractable heavy duty
jockey wheel. Features
anti vibration latch.
- Powerful **hydraulic**
pump and ram.
- **Locking pin** safety device.

● **Machine stop bar**
Set up to provide
consistent load
positioning.

- **Mudguards** are
fully integrated into the
chassis for total durability.
High grip surface offers
operator safety.

QUALITY

Brian James Trailers are manufacturers of class leading trailers, since 1979. When you buy a Brian James Trailer you can be absolutely certain that it is designed and constructed to the highest possible standards. Our Engineers combine top-quality craftsmanship with the best materials and first-class presentation. Light but strong, our trailers are crafted to enhance safety, efficiency and durability.

5 Year Chassis Warranty

This Brian James Trailer is provided to you with a non-transferable manufacturers warranty covering the integrity of the chassis for a period of 5 years from the date of first registration.

We warrant that under normal use, outside of accident damage or misuse (meaning driven across unsuitable territory or being overloaded) the chassis will not fatigue or fail to be able to perform its intended duties safely.

Any repair or rectification as a result of a claim under this warranty will be at Brian James Trailers cost and be carried out either at a Brian James Trailers main dealer, or at the factory HQ in Daventry, UK, at the discretion of Brian James Trailers Ltd. A repair may involve removal of the original galvanised surface finish, for which we will not liable to reinstate to its original state.

Brian James Trailers will not be liable for any consequential loss in connection with a claim on this warranty, including recovery fees or transport to or from the place of final repair.
